Public Health Director Comment

Public Health Director Joshua Swift commented, "NCDHHS issued the following statement yesterday: 'On October 4, NCDHHS experienced technical issues which prevented some laboratory data files from being processed in the NC COVID reporting system. As a result, cases and test data are lower for October 4 than they would have been had all data been processed. Data reported on October 5 will be higher as it will incorporate cases that were intended to be submitted on October 4. NCDHHS is working to resolve the issue.'"
